

## SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost any one knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

SUNDAY WORLD WANTS WORK WONDERS

## THIRTEEN KNOWN DEAD, TWENTY HURT IN DU PONT BLAST

Explosion Shakes the Country for Many Miles Around Pompton Lakes, N. J.

POMPTON LAKES, N. J., Dec. 5.—Thirteen men are known to be dead as a result of the explosion which destroyed the Detonator Assembly Building of the cap works branch of E. I. du Pont de Nemours Powder Company here yesterday afternoon.

One of the injured died early to-day in the plant hospital. Ten of the dead have been identified. One lived in Manhattan and two in Brooklyn. Their addresses are not yet available. A revised list of the dead follows:

Dead—Francisco Rodriguez, Portero; Cagill, George H. Kella, Albert Snell, August Karkamp, Martin Greiley, Leander Veltz, Joseph Murphy, John Meiddu and Anthony Roscoski, all of

whom lived in the immediate neighborhood.

The injured are—At Haskell Hospital—John A. Thompson, Jack Creav, Lester Berton, Frank Salas, Stephen Keohamas, William Keller. —Fowler. At Pompton Lakes Hospital—Arthur Spellman, Benjamin Matsunow, Russell Aurysem, Jackquin Obrigan, Philip Durget, William J. Neeham, Clei Morgan, Thomas (Bert) Jackson, James Munn. —McDonough. —Leas. Two others were sent home.

There were 4,000 persons at work in the plant at the time of the first explosion, and the fact that the departments are in separate buildings and the men work in small groups saved many lives. No women were employed in the building destroyed. After a preliminary investigation, company officials said the explosion probably was caused by some employee dropping one of the caps, which contain fulminate of mercury, a high explosive.

One of the workmen had feared such an explosion and set up a steel slab in front of his bench. The first explosion last night blew the slab almost entirely through his body.

With the first blast hundreds of men, women and children who had relatives in the works hastened there, but were held back by the guards for fear of danger.

Owing to the rapidity of the explosions and the fire, no effort could

be made to get the dead from the burning structure, the plant firemen playing on the flames as quickly as possible to prevent spread of the fire to other buildings, which cover three square miles and where hundreds of thousands of tons of munitions are stored. It was said, however, that the wrecked building contained only twenty-five or thirty pounds of fulminate.

The dead virtually were blown to pieces, and it was several hours before their identities could be learned.

The wrecked building was 30 by 60 feet and of corrugated iron.

A commission of investigators from the Wilmington, Del., headquarters of the company has started an inquiry into the cause of the explosion. One year ago yesterday eight persons were injured in an explosion in the same plant.

200,000 Ship Jobs Open to Men Quitting Army.

According to a notice sent out yesterday by the Shipping Board, the War Department authorized it to notify selective men in demobilization camps that work awaits them in shipyards and the merchant marine if they desire it. It has been estimated that there are 200,000 positions in the shipyards and as members of the merchant crews of vessels to be filled in the next few months. No actual recruiting will be done at the camps, but agents of the Shipping Board will be sent to explain what positions are open.

## "LITTLE MOTHER" OF 14 WILL ADOPT AN ORPHAN BABY

Rose Ferris Anxious to Get Working Papers So She Can Have 'Sister.'

There was no happier girl in all New York to-day than Rose Ferris, fourteen, of No. 17 Downing Street, because she is to be allowed to adopt a baby sister—some little orphan girl to whom she can be a "little mother."

After reading about "Eleanor" and the 499 other orphan children needing homes, she wrote a letter to Dr. Royal S. Copeland, Health Commissioner, asking for one of the 499—preferably Eleanor. Her father is returning from Italy and there is only her mother and brother.

"If you will only keep Eleanor until February," she wrote, "I will take her home with me. I will be fifteen Feb. 3, and then I will get my working papers and can work and support the poor motherless Eleanor."

"Dear Rose," replied Dr. Copeland, "we cannot very well wait until February to find a foster mother for this little girl. She needs a mother right away. But don't you worry about that, because there are other Eleanors who will need attention next year and every year." He continued that when she is old enough and has income enough the Health Commissioner will be glad to know what a good home awaits some orphan child.

Rose was happily excited to-day. "The Commissioner tells me that when I get my working papers," she said, "in two months, there'll be another Eleanor waiting for me. I love babies and wish I had a sister. I'll work for her and keep her clean and good."

### ARMY TO FREE R. R. MEN.

Expected to Be Given Preference in Discharge to Return to Work.

Former employees of railroads now in army service probably will be given preference in their applications for discharge to return to their old positions. In a letter to the employment officers of railroads in the East, Regional Director A. H. Smith announces that the Railroad Administration is "advised by the War Department that if an individual will present to his commanding officer application for discharge, accompanied by a letter from his former employer stating that he has a position for him, it is likely that request for discharge will be granted."

## HIGHER PRICES COMING

Because of increased demand for

# WINES & LIQUORS

The demand far exceeds the supply and the small supply will be exhausted months before the country goes BONE DRY. The wise have grasped the situation and are storing away quantities now to cover the dry season. Higher prices are coming when the public is asked to pay the new revenue tax of \$6.40 per gallon.

Take advantage of this

## FRANKLIN SIMON

# Fur-Lined Overcoats for MEN

## \$135

We would have no difficulty in getting much more for them

THE outstanding feature of these fur-lined overcoats is Quality—Quality in the fur, in the shell, in the making, in the model, in the finish—Quality pure and undefiled. Made of rough surface fabrics, in greens, browns, and grays; lined throughout, including sleeves, with fine selected Northern Muskrat in rich, resplendent shades, or with high-grade Marmot; and collared with Beaver or Natural Otter furs. Put together by specialists in the fur-lined end of the tailoring art, who know how to work shape into a fur-lined coat and how to keep sagging out of it.

Most Important of All

There is no other store in New York where you can get this kind of a coat at this kind of a price. It is more than good value—it is a genuine find!

### Grocer Up Against It.

"I have been up against it for past 3 years suffering from pain in my stomach and side until I was considering giving up my grocery business. Doctors and medicine did not help me. I heard of Mayr's Wonderful Remedy through a friend in Buffalo. The first dose gave me more benefit than all the medicine I had taken before and an now feeling as well as ever in my life. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Liggett-Riker-Jaynes and druggists everywhere.—Adv.

### Teeth Without Plates

I Save Decayed Teeth. Tighten Loose Teeth and Treat Diseased Gums.
